

Report on ICT facilities used by college

Interactive Projectors

MES Institute of Management felt a need for a change in Walk-Talk-Chalk pedagogy since blending technology in the classroom can engage and motivate students to learn better which in turn has a positive effect on their achievement and outcomes, therefore harness the power of technology to improve classroom teaching the college has installed 9 interactive projectors in classrooms and organized a one-day workshop for faculties to undergo training on the same

Features of the Interactive Projectors

1. Split screen which enables the teacher to project 2 images from different sources at the same time making the class more interactive
2. Teachers can create a multimedia presentation and help integrate different learning styles through auditory visual or hands-on.
3. The device can be connected to mobile phones i.e., to utilize Wi-Fi and LAN connectivity
4. Teachers can have access to various sources to enhance and support their lessons with videos, Articles, images, learning tools, and more

5. It enables the teachers to save their presentations for future use
6. It empowers the teachers with tools for making graphical presentations, and formulas while teaching subjects like Data Analytics, Accounting

This upgrade helps the most significant classroom resource, the teacher to focus more on teaching.

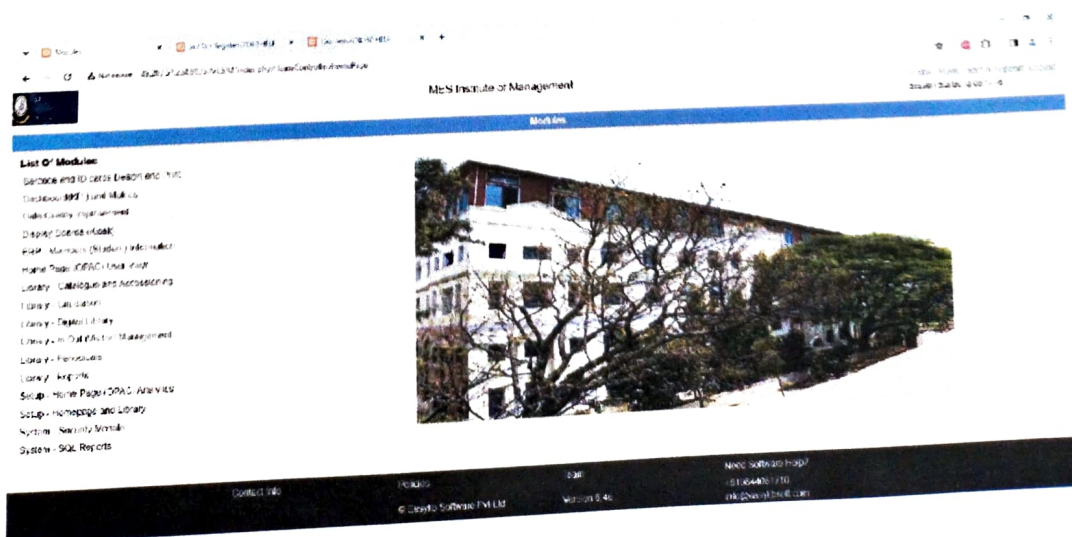

Easylib software

MESIOM recognizes the key to success lies in unfettered access to quality education and to provide this college has installed Cloud-based LMS to carry out library operations.

The following are the advantages of this system

- In the cloud computer system, we can provide question paper link through OPAC which can be easily accessed by the students.
- Students can also access Periodicals, E journals and Reference Books.
- Faculty member easily share the study material through EASYLIB facility which can used by the students for academic performance.
- In this system they can access SWAYAM online certificate portal and take up the courses.
- The data is highly secure and reliable on cloud-based technology
- Provides Remote access for the information and resources to the multiple users from any device.
- Reports can be generated under this system anytime and anywhere without using paper

Well-equipped computer Lab

The computer lab is well equipped with 35 computer systems with hi speed internet connection to facilitate learning
