### STUDENT OPINION

Sandalwood it grows in all the districts of the Mysore state except Kolar and Chitradurgawhere it is found sparingly. Mysore Sandalwood yields a large revenue to the state both through direct sales and by serving as the raw material for the distillation of sandal oil

As sandal oil industry its one hundredth year of service (1916), its contribution to the economic development of Mysore (present Karnataka) state has been acknowledged and appreciated all around. These all credit goes to NalvadiKrishnarajaWodeyar and his eminent Dewans. They encouraged the development of sandal oil industry.

**STUDENT OPINION**

We had been to industrial trip to HAL .There we had learnt many things basically we had no idea regarding how HAL works. There we were permitted to museum there we went through the history of HAL which was a great experience to visualize those pictures and a demo of jets were placed out there with which we got a idea regarding size of fighter jets. And vedio regarding advanced technologies of flights were displayed in projector which we had experienced visually and learnt a bit on how exactly HAL works

### OBJECTIVES OF HRM

- \* Personal objectives to assist employees in achieving their personal goals.
- \* Organizational objectives serve the organization with its primary objectives and bring about over all organizational effectiveness.
- \* Societal objectives to be ethically and socially responsible to the needs and challenges of society while minimizing the negative impact.
- \* Functional objectives to maintain the departments contribution at a level where it serves the organizations needs tailoring the departments according to the requirement of the organization.

### **STUDENT OPINION**

We had been taken out for a industrial visit to KSICL .We had enjoyed a lot during this both in means of entertainment and learning process.KSICL is a reputed industry in India.its sarees goes all price to almost 10lakhs .the process is also very systematically arranged in industry and we students had zero knowledge regarding how sarees are actually made .The way the put colour ,the process they follow was very attractive to look and even staff were very friendly even they showed keen interest in helping us to clear our doubts.

*sharada S*

M.E.S. Institute of Management  
Rajajinagar, BANGALORE - 10.

### STUDENT OPINION

KSDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge. And even in industry when we had been taken for visit the guide at KSICL said some interesting facts about sandalwood tree which we had been of no idea regarding those facts

*STUDENT OPINION*

This industrial visit was very helpful to me. I learnt many things from this it is very much helpful for my studies which we could relate for particular subject and understand in a better way. We can relate the activities of industry like production of products, history of industry, management system of industry for each subject. It also helps students to develop there skills and talent. They provided us all the clear information and clarified our doubts. Though the theory you know may be correct and our knowledge may be perfect, but we will see that particular things work in quite a different way in industries. It provides us an opportunity to learn practically through interaction, working methods and employment practices. Visiting a industry gives you a practical perspective on the world of work.

## STUDENT OPINION

KSDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge. And even in industry when we had been taken for visit the guide at KSICL said some interesting facts about sandalwood tree which we had been of no idea regarding those facts

## STUDENT OPINION

KSDL will remain a household name to the people of India. Their ambition has always been and will continue, to make soap, oil, detergents, for the family of all around the country. And bring new brand extension to suit the need of traditional modern scenario. Its giant infrastructure and network people working towards a common goal to give the customer service and value that he deserves through relentless search for quality and pursuit of excellence looking towards the next century. After analyzing the overall performance of the present and past year working, a few short coming have been notice. Though the company is doing well overall, a little more care taken about same of the aspect of inventory management will add to the profitability of the company. Almost all quality improvement comes via simplification of design, manufacturing, layout process and procedures. The two parameter is working for the company one is brand and secondly the brand loyal customers. In this research we understood the overall position of the company and also how the company overcome from their Competitors and short coming.

sold by the KSIC will come with the logo IPI meaning intellectual property India.

- KSIC is also the first state govt enterprise to get a logo from the geographical indication registry(GIR).
- The KSIC have the patent rights of mysore silk brand and no other organization can use other silk products.

## STUDENT OPINION

From the study conducted regarding "Study of Organization" I feel that the existing system is satisfactory. KSIC has rightly recognized that the quality of man power ultimately determines the success of the organization & to improve the man power quality, it is organizing several programmers' to its employees. Though the organization efforts in the area are appreciated it is felt that there is scope for improvement in the organization. This is one of the finest pure silk saree manufacture in the Silk factory. World Fame authentic pure silk wild collecting grade price especially for wedding. Very much attractive methods to come to know through the techniques and materials changing with customers taste and preference. It is holding a better quality e in saree and maintaining it's great even though it has many competitors.

## HINDUSTAN AERONAUTICS LIMITED (HAL)

### **DEPARTMENT DETAILS:-**

Hindustan Aeronautics Limited (HAL) was formed on 1 October 1964 when Hindustan Aircraft Limited joined the consortium formed in June by the IAF Aircraft Manufacturing Depot, Kanpur (at the time manufacturing HS748 under licence) and the group recently set up to manufacture MiG-21 under licence (with its new factories planned in Koraput, Nasik and Hyderabad). Though HAL was not used actively for developing newer models of fighter jets, except for the HF-24 Marut, the company has played a crucial role in modernisation of the Indian Air Force. In 1957 company started manufacturing Bristol Siddeley Orpheus jet engines under licence at new factory located in Bangalore.

## STUDENT OPINION

The industrial visit was very helpful to me .I learnt many things from that which was very much helpful for my studies which we could relate for particular subject and understand in better way. we can relate the activities of industry like production of products, history of industry, management system of industry for each subject. It also helps students to develop there skills and talent. They provided us all the clear information and clarified all our doubts. Though the theory you know may be correct and our knowledge may be perfect, but we will see that particular things work in quite a different way in industries. It provides us an opportunity to learn practically through interaction, working methods and employment practices. visitinga industry gives us a practical perspective on the world of work.

## STUDENT OPINION

Industrial visit has its own importance in a academic growth of a student who is pursuing a professional degree. It is a part of college curriculum and objective of the industrial visit is to provide student an insight regarding internal working of companies. We know that theoretical knowledge is not enough for making a good professional career and through this industrial visit , I obtained a practical exposure to the working environment of organization.

## STUDENT OPINION

We had been taken out for a industrial visit to KSICL .I understood working process of KSICL. KSICL is a reputed industry in India.its sarees will be sold all over the places with price more than 10lakhs. The process is also very systematically arranged in industry which helped me to understand manufacturing process easily which helped me to gain practical knowledge for my studies.

## STUDENT OPINION

We had been taken for visit the KSDL. In this visit I understood that KSDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge. I got information about the preparation of the products and some interesting facts about sandalwood tree which I have no idea regarding the usage.

## STUDENT OPINION

The industrial visit was very helpful to me .I learnt many things from that which was very much helpful for my studies which we could relate for particular subject and understand in better way. we can relate the activities of industry like production of products, history of industry, management system of industry for each subject. It also helps students to develop there skills and talent. They provided us all the clear information and clarified all our doubts. Though the theory you know may be correct and our knowledge may be perfect, but we will see that particular things work in quite a different way in industries. It provides us an opportunity to learn practically through interaction, working methods and employment practices. visiting a industry gives us a practical perspective on the world of work.

## STUDENT OPINION

Industrial visit has its own importance in a academic growth of a student who is pursuing a professional degree. It is a part of college curriculum and objective of the industrial visit is to provide student an insight regarding internal working of companies. We know that theoretical knowledge is not enough for making a good professional career and through this industrial visit , I obtained a practical exposure to the working environment of organization.

**STUDENT OPINION**

We had been to industrial trip to HAL. There we had learnt many things basically we had no idea regarding how HAL works. There we were permitted to museum there we went through the history of HAL which was a great experience to visualize those pictures and a demo of jets were placed out there with which we got a idea regarding size of fighter jets. And video regarding advanced technologies of flights were displayed in projector which we had experienced visually and learnt a bit on how exactly HAL works

### OBJECTIVES OF HRM

- \* Personal objectives to assist employees in achieving their personal goals.
- \* Organizational objectives serve the organization with its primary objectives and bring about overall organizational effectiveness.
- \* Societal objectives to be ethically and socially responsible to the needs and challenges of society while minimizing the negative impact.
- \* Functional objectives to maintain the departments contribution at a level where it serves the organizations needs tailoring the departments according to the requirement of the organization.

### STUDENT OPINION

We had been taken out for an industrial visit to KSICL. We had enjoyed a lot during this both in terms of entertainment and learning process. KSICL is a reputed industry in India. Its sarees go all the way up to almost 10 lakhs. The process is also very systematically arranged in the industry and we students had zero knowledge regarding how sarees are actually made. The way they put colour, the process they follow was very attractive to look at and even staff were very friendly even they showed keen interest in helping us to clear our doubts.

## STUDENT OPINION

KSDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge. And even in industry when we had been taken for visit the guide at KSICL said some interesting facts about sandalwood tree which we had been of no idea regarding those facts

## STUDENT OPINION

The objective of an industrial visit is to provide us an insight regarding internal working of the company. We understand that theoretical knowledge is not enough for a successful professional career .with an aim to go beyond academics industrial visit provides students a practical perspective of the work place

HAL is one of the Asia's largest aerospace company. as the company philosophy corporate governance is based on the principle of transparency, compliance of law ,procedures & adhering to the values and business ethics

It has limited customer base and all the raw material of the company is based on the foreign countries .employees are not satisfied with the current performance appraisal system the appraise is not given the maximum marks in accordance with there performance in the company the quantity of work is given more importance than quality of work.

## STUDENT OPINION

The objective of an industrial visit is to provide us an insight regarding internal working of the company. We understand that theoretical knowledge is not enough for a successful professional career .with an aim to go beyond academics industrial visit provides students a practical perspective of the work place

HAL is one of the Asia's largest aerospace company. as the company philosophy corporate governance is based on the principle of transparency, compliance of law ,procedures & adhering to the values and business ethics

It has limited customer base and all the raw material of the company is based on the foreign countries .employees are not satisfied with the current performance appraisal system the appraise is not given the maximum marks in accordance with there performance in the company the quantity of work is given more importance than quality of work.

## *STUDENT OPINION*

The objective of an industrial visit is to provide us an insight regarding internal working of companies. We understand that theoretical knowledge is not enough for a successful professional career. With an aim to go beyond academics, industrial visit provides students a practical perspective of the work place. They provided us all the clear information and clarified all our doubts. Though the theory you know may be correct and our knowledge may be perfect, but we will see that particular things work in quite a different way in industries. It provides us an opportunity to learn practically through interaction, working methods and employment practices. Visiting industry gives you a practical perspective on the world of work.

## NUMBER OF PEOPLE EMPLOYED AND HUMAN RESOURCE DETAILS

Number of people employed in HAL is 55,000.

### ***HUMAN RESOURCE DETAILS:***

The HR processes viz. Recruitment, Placement, Compensation, Career Growth, Career Planning, Succession Planning etc. are linked to the current and future projects of HAL. HAL today needs to develop capabilities essential to become a globally competitive and a high growth organization.

### ***STUDENT OPINION***

We had been to industrial trip to HAL .There we had learnt many things basically we had no idea regarding how HAL works. There we were permitted to museum there we went through the history of HAL which was a great experience to visualize those pictures and a demo of jets were placed out there with which we got a idea regarding size of fighter jets. And video regarding advanced technologies of flights were displayed in projector which we had experienced visually and learnt a bit on how exactly HAL works

### OBJECTIVES OF HRM

- \* Personal objectives to assist employees in achieving their personal goals.
- \* Organizational objectives serve the organization with its primary objectives and bring about over all organizational effectiveness.
- \* Societal objectives to be ethically and socially responsible to the needs and challenges of society while minimizing the negative impact.
- \* Functional objectives to maintain the departments contribution at a level where it serves the organizations needs tailoring the departments according to the requirement of the organization.

### STUDENT OPINION

We had been taken out for an industrial visit to KSICL .KSICL is a reputed industry in India.Its sarees goes all price to almost 10lakhs .The process is also very systematically arranged in industry and we leant the production process of sarees the scientific methods ,costing methods,quality control measures and HR policy of the industry.We had the opportunity to witness the practical perspective of theoretical knowledge.

*Sharada S*

M.E.S. Institute of Management  
Rajajinagar, BANGALORE - 10.

## STUDENT OPINION

KSDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge. And even in industry when we had been taken for visit the guide at KSICL said some interesting facts about sandalwood tree which we had been of no idea regarding those facts

## STUDENT OPINION

The industrial visit was very helpful to me .I learnt many things from that which was very much helpful for my studies which we could relate for particular subject and understand in better way. we can relate the activities of industry like production of products, history of industry, management system of industry for each subject. It also helps students to develop there skills and talent. They provided us all the clear information and clarified all our doubts. Though the theory you know may be correct and our knowledge may be perfect, but we will see that particular things work in quite a different way in industries. It provides us an opportunity to learn practically through interaction, working methods and employment practices. visitinga industry gives us a practical perspective on the world of work.

## STUDENT OPINION

Industrial visit has its own importance in a academic growth of a student who is pursuing a professional degree. It is a part of college curriculum and objective of the industrial visit is to provide student an insight regarding internal working of companies. We know that theoretical knowledge is not enough for making a good professional career and through this industrial visit , I obtained a practical exposure to the working environment of organization.

The above data gives net worth ratio of the company of the last two years, the ratio of the company in 2017 is 14.22% and ratio is decreased to 13.31% in 2018.

**DEPARTMENT DETAILS:-**

Hindustan Aeronautics Limited (HAL) was formed on 1 October 1964 when Hindustan Aircraft Limited joined the consortium formed in June by the IAF Aircraft Manufacturing Depot, Kanpur (at the time manufacturing HS748 under licence) and the group recently set up to manufacture MiG-21 under licence (with its new factories planned in Koraput, Nasik and Hyderabad). Though HAL was not used actively for developing newer models of fighter jets, except for the HF-24 Marut, the company has played a crucial role in modernisation of the Indian Air Force. In 1957 company started manufacturing Bristol Siddeley Orpheus jet engines under licence at new factory located in Bangalore.

## CONCLUSION :

K.SDL has a wide variety of products but people are unaware of many products like Agarbathi, Detergents, Baby soaps etc., as its marketing is very weak. So it should spend both money and man power on advertising. They should also improve in building up the strong marketing strategy in order to improve the distribution channels and could be able to increase the sales other than the Mysore Sandal Soap. Thus the R&D should work effectively and achieve the break-through in new products and can make the company to earn more profits. The management should design Training and Development programmes and Career Development programmes and identify the skills or knowledge

***STUDENT OPINION***

We had been to industrial trip to HAL .There we had learnt many things basically we had no idea regarding how HAL works. There we were permitted to museum there we went through the history of HAL which was a great experience to visualize those pictures and a demo of jets were placed out there with which we got a idea regarding size of fighter jets. And video regarding advanced technologies of flights were displayed in projector which we had experienced visually and learnt a bit on how exactly HAL works

### OBJECTIVES OF HRM

- \* Personal objectives to assist employees in achieving their personal goals.
- \* Organizational objectives serve the organization with its primary objectives and bring about overall organizational effectiveness.
- \* Societal objectives to be ethically and socially responsible to the needs and challenges of society while minimizing the negative impact.
- \* Functional objectives to maintain the departments contribution at a level where it serves the organizations needs tailoring the departments according to the requirement of the organization.

### STUDENT OPINION

We had been taken out for a industrial visit to KSICL .We had enjoyed a lot during this both in means of entertainment and learning process.KSICL is a reputed industry in India.its sarees goes all price to almost 10lakhs .the process is also very systematically arranged in industry and we students had zero knowledge regarding how sarees are actually made .The way the put colour ,the process they follow was very attractive to look and even staff were very friendly even they showed keen intrest in helping us to clear our doubts.

## STUDENT OPINION

The objective of an industrial visit is to provide us an insight regarding internal working of the company. We understand that theoretical knowledge is not enough for a successful professional career with an aim to go beyond academics industrial visit provides students a practical perspective of the work place

HAL is one of the Asia's largest aerospace company. as the company philosophy corporate governance is based on the principle of transparency, compliance of law procedures & adhering to the values and business ethics

It has limited customer base and all the raw material of the company is based on the foreign countries. employees are not satisfied with the current performance appraisal system the appraise is not given the maximum marks in accordance with there performance in the company the quantity of work is given more importance than quality of work.
