

7.1.6 Other Information

The Eco club - Dharini took the initiative for first time to conduct Campus cleanliness Drive. The objective was to raise awareness among students about cleanliness within the campus and to engage students in environmental activities and also in segregating dry and wet waste. On 16th February 2023, volunteers and faculty of eco-club Dharini cleaned College Campus (both within & outside the College) and re-potted the plants on the campus. A workshop on the procedure for preparation of manure from dry leaves was also conducted.

EARTH DAY CELEBRATIONS 2022-23

Poster Making Competition on the occasion of Earth Day was organised on 18.05.22 in order to bring awareness and educate the students about rising pollution. Different aspects of pollution were given to the students to make posters which contained causes, its effects and remedies. Totally 10 teams participated in the event, out of which three teams were selected and awarded.
