Objectives

- To serve economically backward people and help them to know about cancer.
- To help people to find cancer at the early stage, before symptoms appear through screening tests.

On 28th May 2024, Indian cancer society supported by oracle had organised Cancer screening camp which was held near Navrang. As a member of Rotaract club as a volunteer we had been to this camp which was meant for economically backward people. There were 3 cancer screening organised in this camp breast cancer, cervical cancer and oral cancer. Breast cancer and cervical cancer which was held for women especially married women and oral cancer for both men and women. Along with-it BP,Diabetics,HP, HIV tests were also conducted to know the health condition

Women always look after their family and children but they don't consider their health as their priority especially women after giving birth to their children they neglect their health. So for this reason Indian medical association women doctors wing Bangalore branch had organised cancer screening camp which was led by Dr.Sathyavathi, Surgeon in Kempe Gowda hospital. More than 100 people women and 25 men participated in this camp. It was a good learning and unique experience for our students and a great opportunity to serve society.

- ✓ Breast cancer was done by Dr.Ankitha,Vaidehi hospital Bangalore
- ✓ Cervical cancer was done by Dr.Vedha
- ✓ Oral cancer was done by Dr. Winni and Dr.Niriksha

Outcomes

- Women who participated in this got educated about the cancer like what are the causes of it, what has to be done if the reports are positive.
- Offering free cost service by the doctors helped to increase access for economically backward or disadvantaged individuals.
- Gathered valuable data on the prevalence and types of cancer in the screened population, which can inform public health strategies and resource allocation.
- Identified the high-risk individuals and advising them on lifestyle changes or preventive measures to reduce their cancer risk.
